### THE MARTÍN VILLAR AWARDS

The Martín Villar program's objective is to **support research projects in bleeding disorders (hemophilia and von Willebrand disease) to encourage further investigation in this field.**

Dr. Martín Villar (Valencia, Spain 1922-2011) was a world-renowned hematologist, who pioneered the treatment of hemophilia in Spain.

In 2007, as a tribute to his career, and to honor his contribution to the management of hemophilia, Grifols launched the Martín Villar Awards Program, with the aim of identifying and supporting innovative clinical and scientific work that offers a greater insight into hemostasis.

---

### ABOUT MARTÍN VILLAR PROGRAM

The Martín Villar program offers two research grants of €50.000 to applicants whose proposals best match the program objectives, according to assessment by an independent review committee.

The grants will be awarded in two different categories:

- Basic Research
- Clinical Research

### WHO CAN APPLY

Scientists or clinicians with innovative ideas relevant to hemophilia and von Willebrand disease are invited to submit their application if they meet the following criteria:

- The contribution is basic or clinical research specifically related to hemophilia and von Willebrand disease pathologies or management with plasma-derived protein therapies.
- The research is conducted at hospitals, universities or independent institutions.
- The research project has goals that reasonably can be achieved within 12 months.
- Applicants are employed or supported by a hospital, university, or independent institution.
- Primary applicant is under the age of 40 at the time of submission.

---

## EVALUATIONS AND SELECTION OF RESEARCH PROPOSALS

Applications are evaluated based on four criteria:

- Scientific merit
- Innovation
- Clinical and medical impact
- Quality of research environment

The review board will be looking for significant contributions to basic or clinical research in the field of hemophilia and von Willebrand disease.

---

## APPLICATION PROCESS

Eligible applicants are asked to submit a Letter of Intent outlining the aims of their research project. All the **Letters of Intent** will be reviewed by the External Review Committee who will select a number of candidates to submit a **full proposal**. The Jury/Review Committee will then evaluate full proposals in detail, before selecting the Awardees.

---

## TIMELINES FOR THE MARTÍN VILLAR PROGRAM

Open for submission:  
**July 15, 2020**

Deadline for participation:  
**March 10, 2021**

Publication of awardees' names on the Grifols website:  
**May 31, 2021**

Additional information on the grant program, detailed timelines, the constitution of the review board, and the application process can be found on our website. For more detailed information on the Martin Villar Awards please visit:
